

International Summer Courses 2020 – German Language and Culture

To whom it may concern,

We would like to introduce our **39th International Summer Courses for 2020**. This “German Language and Culture” program will take place from **August 29th to September 27th**. Lessons will be taught on four different levels: **A2, B1, B2, C1** (so they are not suitable for absolute beginners). Three lessons are given daily: basic German, cultural and regional studies. There will be a different teacher for each lesson which guarantees a high variety in methodology and personality.

Classes take place five days a week. Alongside this, we offer an **accompanying program** including day trips to historical cities and regional companies, lectures on innovative research projects at institutes of the university, visits to local museums and a weekend trip to Berlin. Furthermore we will attend movie shows, go on a pub crawl and offer enough free time for own explorations.

By successfully finishing the program students will receive **6 ECTS credit points**.

Exploring the university, the city and its region and interacting with fellow students, our course participants will be well prepared to stay here for the following semester and to accomplish a semester abroad.

Please do inform your students about our program. We would be delighted to have them. Students interested in taking part in our program should register as soon as possible.
